R&D, Les Ulis, France

# Accelerating Research & Development

Delivering innovation in Oncology,  
Rare Disease and Neuroscience

**We bring deep heritage and expertise**

Founded >90 years ago, with hubs in all major markets  
and #1 or #2 market share in all our label indications

**We forge strong global partnerships  
with trust at the center**

>20 new partnerships since 2020 across all  
stages of development

**We apply precision focus**

>700 colleagues dedicated to R&D

**We are passionate about science  
and solving new problems**

Multiple FDA fast-tracked programs

Together with our partners we will bring the full potential of  
innovative medicines to patients with significant unmet medical need
